

Troop 394 took a snowboard/skiing trip to Donner Ski Ranch on January 20, 2007. There were 8 scouts that went on this trip. The weather was sunny but the snow was icy. Some of the scouts were snowboarding or skiing for the first time. The lessons were a great help. Those more venturous skiers went to higher ground. The excitement of the day came when Wesley fell on the half pipe and broke his arm. Overall, we had a great time.

Following are some pictures of some of the kids that went:
